

Carbon Footprint AB Komponenty

Decarbonization Project:

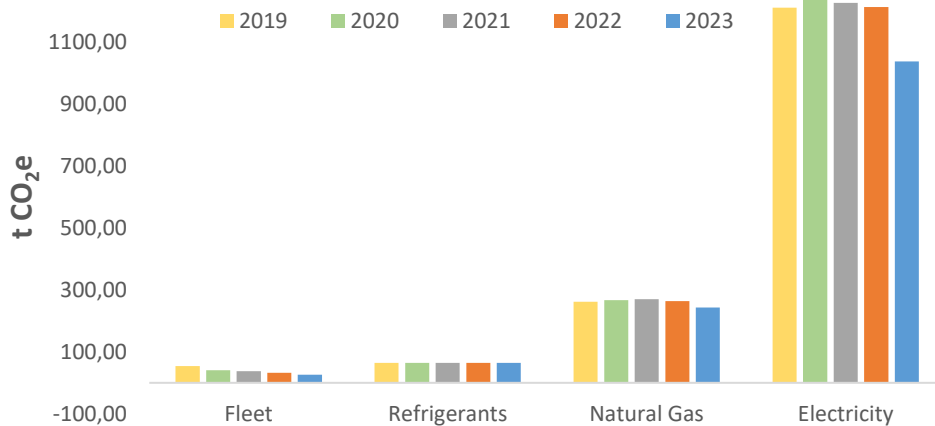

Reduction of the carbon footprint by 10% within Scope 1 and 2 to 2025.

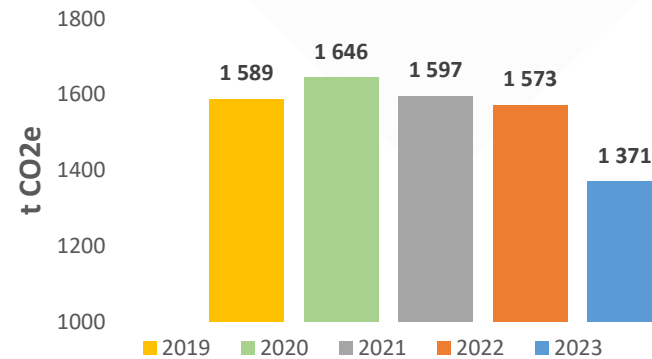

Emission production in 2023 [tCO₂e]

Production CO₂e

Overview of the carbon footprint 2019 - 2023

The company is engaged in the production of parts and components in the field of mechanical engineering and the electrical engineering industry. The variety of machinery provides customers with complete services in the field of CNC metal machining and sheet metal processing, including surface treatment. These are mainly products made by machining, forming, cutting, punching, welding and soldering technologies without surface treatment, or with surface treatment by powder coating.
